

Minimising waste, maximising performance

High performance
LOWCO₂T products for
the cleaning, hygiene,
catering and
packaging sectors

cromwellpolythene.co.uk

A bag for all reasons

Not quite the butcher, the baker, the candlestick maker, but Cromwell Polythene supplies storage and collection products for a wide range of recycling and waste management applications in both the public and private sectors.

From cleaning and janitorial professionals to hygiene and catering specialists, all share a common need for ethically manufactured, sustainable products that are fit-for-purpose, competitively priced and sourced from a reputable supplier.

Products shown here represent a popular selection of our best-selling lines. We are, however, regularly asked to devise bespoke solutions when our range of stock products may not provide exactly what a customer is looking for.

Performance refuse sacks

Available in all grades, with LOWCO₂T™ options, black refuse sacks are manufactured from high quality recycled materials.

- 80-140 litres capacity, to fit most waste containers
- 5/10/15/20 kg design weights, CHSA accredited
- Available in standard lengths, 34" and 39"
- Durable and economical
- In stock for immediate despatch
- Loose folded/flat packed in 50s (LDPE and HDPE)
- 200 sacks (4 x 50) per carton
- Packed in strong 100% recycled cardboard cartons
- Up to 97% recycled polyethylene (PE)

Coloured sacks

Available in a wide choice of colours, used to identify and segregate individual waste streams.

- 97-100% recycled polyethylene (PE)
- 10kg CHSA accredited design weight
- 90 litres capacity, to fit most waste containers
- Durable, economical and recyclable
- 200 sacks (4 x 50) per carton
- Packed in strong 100% recycled cardboard cartons

Office bin liners

Fit-for-purpose office bin liners. Suitable for lightweight waste within the work or away-from-home environment. Headed by our premium HDPE 'Pearl' brand.

- 15-50 litres capacity
- Swings, pedals and squares
- Four different thicknesses
- Packed in 500's and 1000's
- Poly packed internally for easy distribution
- Packed in strong 100% recycled cardboard cartons

Compactor sacks and wheeled bin liners

- 140/240/360/1100 litre liners, all available from stock
- Range of thicknesses
- Bags available either to line bins, or for lifting out
- Black and clear options
- Made from up to 100% recycled material
- Packed in strong 100% recycled cardboard cartons
- CHSA accredited
- Durable and economical

Clear sacks

- 90 litres capacity
- Range of thicknesses
- Virgin and 100% recycled
- 10kg CHSA accredited design weight
- Made from up to 100% recycled material
- Packed in strong 100% recycled cardboard cartons
- Durable and economical

Cromwell's 'Protector' range

- High performance, LOWCO₂T™ aprons
- Available in two colours
- 11 micron thickness
- Packed in strong 100% recycled cardboard cartons
- Durable and economical
- Indexed internally in dispenser packs
- High performance, LOWCO₂T™ laundry sacks
- Available in red
- Soluble strip for easy open

Clinical waste sacks

Our clinical waste range includes 'tiger stripe' sacks, for deep landfill; yellow UN sacks, for incineration; and orange UN sacks, for disposal in alternative treatment (AT) plants.

Builders' bags

- 30-50 litres capacity
- Virgin and 100% recycled
- Wide colour choice
- Hold up to 25kg
- Product is recyclable
- Packed in strong 100% recycled cardboard cartons
- High strength welds
- In stock for immediate despatch

Protective sheeting

- Centre and multi-folded options
- Virgin and 100% recycled
- Several thicknesses available from stock
- Easily cut to size
- Waterproof

A more resourceful company than most

Fundamental to the sound environmental principles that drive the company is a 'closed loop' sustainability strategy that has seen continued growth in the volume of plastics, board and other waste that we recover from industrial packaging waste streams and return to the production cycle.

This same ethical approach has underpinned our expansion in the local authority, waste management, cleaning and janitorial and healthcare markets, while the range of industrial and consumer sectors

that we supply has also grown. Today, Cromwell Polythene products are regularly supplied – and in some cases specially developed – for businesses as diverse as automotive maintenance and repair, horticulture, paint and chemical manufacture, raw material and food ingredient suppliers, leisure parks, pet cemeteries and crematoria and builders' merchants.

Symbol	Ref	Description
	PET	Polyethylene terephthalate
	HDPE	High-density polyethylene
	PVC	Polyvinyl chloride
	LDPE	Low density polyethylene
	PP	Polypropylene
	PS	Polystyrene
	OTHER	Any other plastics
